EXPERIENCE & PROJECTS

Software Developer | Megovation Pvt Ltd

Dec 2024 – Sep 2025 (Full-time) · Jun 2024 – Nov 2024 (Internship)

- Customized **Odoo ERP** modules (HR, Payroll, Inventory, PLM), improving efficiency by **25%** and reducing errors by **15%**.
- Developed **Data Safeguard System**, a configurable test-data generator with validation and automation, reducing **QA** preparation time by **40%** and increasing data reliability.
- Migrated legacy Java applications to Django + TypeScript, improving backend response time by **20%** and enabling seamless API integration.
- Developed responsive web apps ([Shrestha](#), [Meat Market](#)) with interactive layouts, filters, and intuitive UI, boosting user engagement by **15–20%**.
- Built Tkinter-based [Library Management System](#) handling **500+ books** with authentication and interactive GUI.
- **Launched: [Ama Sarees](#) – A Complete Saree Shop Management System:** A full-stack **Django + React** app built to manage saree inventory, sales, and top-product insights for small or home-run businesses. Inspired by personal experience, it delivers a simple, production-ready retail solution.
- Completed **Java Developer Virtual Internship**.
